### Overview

Stay in control of your trading even when you are on the move with Arihant's Mobile trading tools optimised for tablets and smartphones. Our easy-to-use app allows you to view market data and trade real time!

- Trade on NSE - Nifty (equity, FNO) and currency markets
- Trade on MCX and NCDEX
- It's quick and easy to use

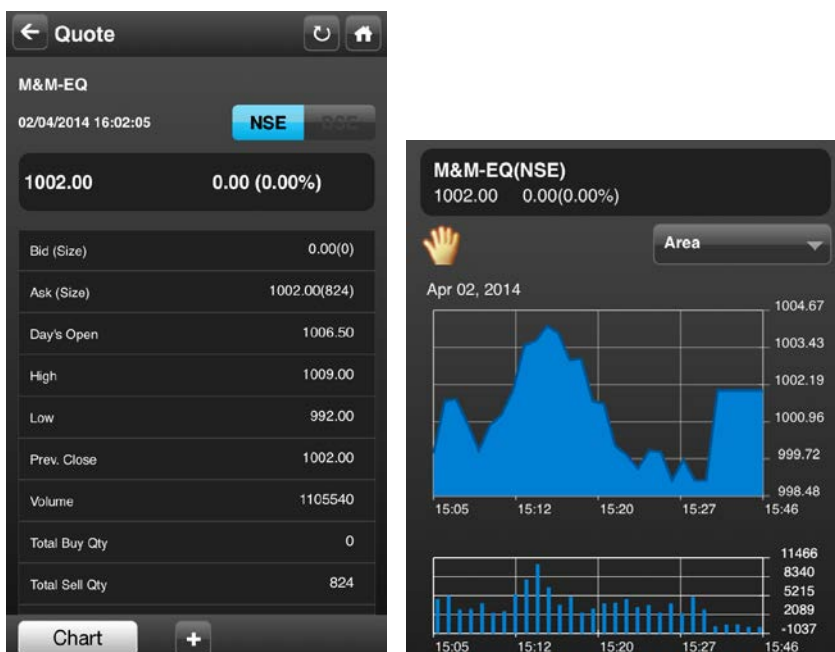

You will never lose any opportunity

(\*MCX and NCDEX trading is not supported on iOS currently; trading on NSE through NOW can be done on iOS and Android)

**Trade in equities, commodity and currencies, watch real time market and more.**

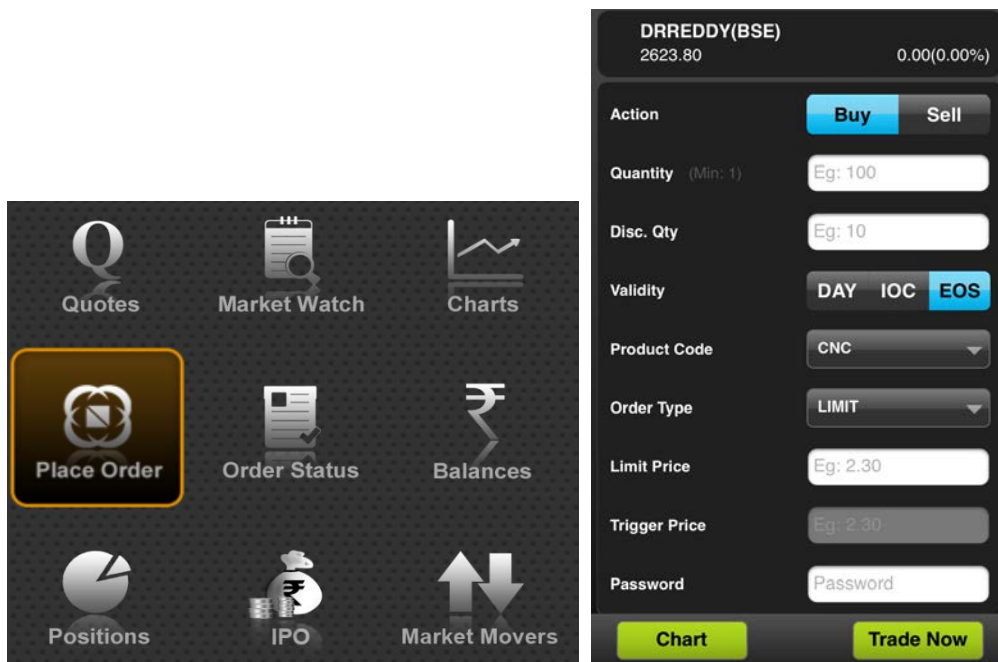

### STREAMING QUOTES

Get market and security quotes in real time

## TRADE

Trade hassle free and with ease in stocks, options, futures, ETFs, commodities and currency. Choose the action, quantity, disclosed quantity, order type, and limit. Plus view the status of your orders.

## INTERACTIVE STOCK CHARTS

View robust amounts of price and volume data in an efficient, user-friendly display using charts in four different styles – area, candlestick, line, OHLC.

Charts make it easy to analyze movements amid constantly changing market conditions and understand the trend of your favourite stocks.

## WATCHLIST

Monitor the securities that matter to you, create your own custom watch lists.
