Market Technical Outlook

Nifty opened higher traded with positive bias throughout the day to close in green. We maintain our stance that 16800 to 17000 demand zone is acting as support for the prices. On the daily chart we are observing a “Doji” candlestick pattern which clearly suggests that markets are circumspect at current level. In coming trading session if Nifty for first hour trades above 17410 level then it may test 17470 – 17550 levels. On the downside, 17210 – 17100 levels may act as support for the day. **Since, the Finance ministry is going to announce the UNION BUDGET -2022 we are likely to witness volatility. Further we still maintain our stance that 16800 - 17000 demand zone is make or break level. Hence cautiously positive approach should be adopted at current level.**
