Market Technical Outlook

Nifty, opened lower in wake of weak global clues and momentum on the downside intensified as the day progressed which led nifty to close deep in red. On the daily chart, we are observing that prices have tested the upward gap area in the range of 14336 to 14469 (formed on 2nd-Feb- 2021) but have closed above it. At present, 14444 which is the 50-day SMA is the important support on daily closing basis. In coming trading session if Nifty holds 14444 for first hour then it may test 14620 - 14750 levels. On the flip side if nifty breaches 14444 then it may test 14300 - 14200 levels.

We still maintain our stance that the upward gap area in the range of 14336 to 14469 (formed on 2nd-Feb- 2021) may act as support for prices going forward. At present one need to adopt cautiously positive on the market as stock specific move is likely to continue.
