### Market Technical Outlook

Nifty, opened lower in wake of weak global clues and traded with negative bias throughout the day to close in red. On the daily chart we are observing a narrow range body formation which suggests indecisiveness prevailing at current level. We maintain our stance that the upward gap area in the range of 14572 – 14617 is likely to act as support for the prices. At present prices have closed below the 50day SMA (14774). In coming trading session if Nifty trades above 14815 then it may test 14900–15000 levels. On the downside, 14600 - 14500 levels may act as support for the day. **Since, the prices have closed below the 50-day SMA (14774), one can adopt cautiously positive approach at current level. However, stock specific activity is likely to continue.**
