### Market Technical Outlook

Nifty opened up with a gap traded in a narrow range with positive bias to close in green. On the daily chart we are observing three consecutive upward gap area which suggests that the undertone in the market is positive. In coming trading session if Nifty for first hour trades above 18543 level then it may test 18600 - 18650 levels. On the downside, 18350 - 18240 levels may act support for the day.

**We still continue to maintain our stance that stock specific activity is likely to continue.**
