Nifty opened lower traded with choppiness in a narrow range and finally close in red. On the daily chart, we are witnessing that prices have closed within the upward gap area of 15749 to 15815 (formed on 27/8/2022) for two consecutive trading sessions. We maintain our stance that the 20days SMA (15848) is immediate resistance. In coming trading session if Nifty for first hour trades above 15848 level then it may test 15930 – 16000 levels. On the downside, 15640– 15590 levels may act as support for the day.

We still continue to maintain our stance that one needs to adopt cautious approach at current level.
