Market Technical Outlook

Nifty, opened up with a gap and traded with positive bias throughout the day to close in green. On the daily chart, we are observing an upward gap area in the range of 17838 to 17899. Normally, upward gap area does act as support for the prices. In coming trading session if nifty trades above 18030 level then it may test 18150 - 18240 levels. On the downside, 17900 - 17800 levels may act as support for the day. **We still continue to maintain our stance that, looking at the position of the short term moving averages and position of the momentum indicator viz. RSI. We are of the opinion that momentum on the upside is likely to continue. Hence, one should adopt positive approach at current level.**
