Market Technical Outlook

Nifty opened higher traded with extreme choppiness but finally managed to close in green. On the daily chart we are observing that prices have closed well above the 50-day SMA (17430). This suggests that momentum on the upside may continue. In coming trading session if Nifty for first hour trades above 17622 level then it may test 17700 – 17750 levels. On the downside, 17660- 17550 levels may act as support for the day.

We continue to maintain our stance that 16800 - 17000 demand zone is make or break level. Hence cautiously positive approach should be adopted at current level.
