Market Technical Outlook

Nifty, opened higher but was unable to sustain the opening gains and selling dragged down nifty to close in red. On the daily chart we are observing that prices have closed below the 21-day SMA which suggests that the uptrend is coming under pressure. In coming trading session if Nifty for first hour trades below 15667 then it is likely to test 15580 – 15470 levels. On the upside, 15800 – 15900 levels may act as resistance for the day.

We still maintain our stance that stock specific activity is likely to continue in small and Mid-cap stocks.
