Market Technical Outlook

On the monthly chart, we are observing two consecutive “Doji” candlestick pattern which suggests that markets are cautiously positive at current level. In coming month if Nifty trades and close above 15855 level then it is likely to test 15986 – 16117 – 16270 levels. However, if Nifty trades and close below 15670 level then it can test 15539 – 15408 - 15256 levels.

At present the monthly trend is up. Hence, any decline in the range of 15539 – 15408 levels should be used to go long for a target of 15986 – 16117 – 16270 levels. Hence, one needs to adopt buy on decline strategy as stock specific move is likely to continue.

Foreign Institutional Investments (FII's) Activities
