Market Technical Outlook

Nifty, opened higher in wake of positive global clues and traded volatile throughout day with positive bias to close in green. On the daily chart, we are observing that prices have taken a support at the upward gap area in the range of 14336 to 14469 (formed on 2nd -Feb- 2021) and has given closed above 30 SMA. We maintain our stance that 14444 which is the 50-day SMA is the important support on daily closing basis. In coming trading session if Nifty trades above 14950 then it may test 15050 – 15150 levels. On the downside, 14850 – 14780 levels may act support for the day.

We continue to maintain our stance that the upward gap area in the range of 14336 to 14469 (formed on 2nd -Feb- 2021) may act as support for prices going forward. At present one need to adopt cautiously positive approach towards the market as stock specific move is likely to continue.
