Market Technical Outlook

Nifty, opened up with a gap and traded with positive bias throughout the day to close in green. On the daily chart, we are observing a"Doji" candlestick pattern at the supply zone of 18078-18201. Hence a pull back from current level cannot be ruled out. Further the upward gap area of 18089 to 18101 is likely to act as support for the prices. In coming trading session if nifty trades below 18125 level then it may test 18100-18000 level. On the upside, 18250-18350level may act as resistance for the day.

Broadly, looking at the current price action it is evident that a pullback from current level cannot be ruled out. Hence, one needs to adopt cautiously positive approach at current level as stock specific activity is likely to continue.
