Market Technical Outlook

Nifty opened lower but witness buying pressure in the latter half of the session which led Nifty to close in green. On the daily chart, we are observing strong bull candle which has convincingly close above the 17500 level. This suggests upside momentum. In coming trading session if Nifty for first hour trades above 17703 level then it may test 17800 - 17910 levels. On the downside, 17570-17450 levels may act as support for the prices.

Since, Nifty has convincingly close above 17500 level we are of the opinion that Nifty is likely to test 18000 – 18200 levels in couple of weeks. Hence, one needs to adopt buy on decline strategy at current level.
