Market Technical Outlook

Nifty, opened lower in wake of weak global clue but recovered some of its losses during the day to close in red. On the daily chart, we are observing a narrow range body formation which has tested the gap area of 18101 to 18089 and closed within it. In coming trading session if nifty trades below 18040 level then it may test 17980 – 17900 level. On the upside, 18170– 18260 level may act as resistance for the day. **We maintain our stance that the current price action suggests a pullback from current level. Hence, one needs to adopt cautiously positive approach at current level as stock specific activity is likely to continue.**
