Market Technical Outlook

Nifty, opened up with a gap and momentum on the upside intensified as the day progressed which led the indices to close in green. On the daily chart we are observing an upward gap area in the range of 15597 – 15611. Normally upward gap area act as support for the prices. We maintain our stance that there is no weakness on the daily chart. In coming trading session if Nifty for first hour trades above 15705 level then it may test 15800 -15900 levels. On the downside, 15600 -15500 levels may act as support for the day.

We still maintain our stance that stock specific activity is likely to continue in small and Mid-cap stocks.
