Market Technical Outlook

Nifty opened lower initial witness a selling pressure but recovered most of its losses during the day to close in red. On the daily chart, we are witnessing that prices on intraday basis breached the upward gap area of 15749 to 15815 (formed on 27/8/2022) but has close within it. We maintain our stance that the 20days SMA (15839) is immediate resistance. In coming trading session if Nifty for first hour trades above 15800 level then it may test 15900 –15950 levels. On the downside, 15640–15550 levels may act as support for the day.

Broadly we are of the opinion that a bounce from current level cannot be ruled out. Hence, cautiously positive approach should be adopted at current level
