Market Technical Outlook

Nifty opened up with a gap and momentum on the upside intensified as the day progressed which led the nifty to close in green. On the daily chart we are observing an upward gap area in the range of 15892 – 15914. Normally upward gaps do act as support for the prices. In coming trading session if Nifty for first hour trades above 16146 then it may test 16250 - 16360 levels. On the downside, 16030 - 15950 levels may act as support for the day.

We still continue to maintain our stance that stock specific activity is likely to continue in small and Mid-cap stocks.
