Market Technical Outlook

Nifty, opened higher traded with choppiness but finally managed to close in green. On the daily chart we are still observing a continuation of higher highs which suggests that the undertone is still positive. In coming trading session if Nifty trades above 14150 level then it may test 14250 - 14350 levels. On the downside, 14000 - 13900 levels may act as support for the day.

We still maintain our stance that the upward gap area and higher highs formations on the daily Nifty chart suggests that momentum on the upside is likely to continue. Hence, one needs to adopt cautiously positive approach at current level as stock specific activity is likely to continue.
