### Market Technical Outlook

Nifty opened up with a gap and traded with positive bias throughout the day to close in green. On the daily chart, we are observing an upward gap area in the range of 17703 to 17791. Normally upward gaps do act as support for the prices. In coming trading session if Nifty for first hour trades above 18114 level then it may test 18200 - 18300 levels. On the downside, 17950 -17830 levels may act as support for the prices.

**Broadly, looking at the upward gap area on the daily chart we are of the opinion that Nifty is likely to test 18200 – 18500 levels in couple of weeks. Hence, one needs to adopt buy on decline strategy at current level.**
