Market Technical Outlook

Nifty, opened lower made a low of 14459 but recovered some of its losses in the latter half of the session to close in red. On the daily chart we are observing prices have tested the upward gap area of 14572 to 14617 (upward gap area formed on 30.03.2021) and has closed above it. Normally upward gap area does act as support for the prices. In coming trading session if Nifty trades above 14700 then it may test 14850 - 14900 levels. On the downside, 14500 - 14400 levels may act as support for the day.

Since, the prices have closed below the 50-day SMA (14786), one can adopt cautiously positive approach at current level. However, stock specific activity is likely to continue.
