Market Technical Outlook

Nifty opened higher but was unable to sustain opening gains and momentum on the downside intensified in the final hour of the trading session which drag Nifty to close in red. On the daily chart, we are observing a pause of current uptrend, however we maintain our stance that upward gap area in the range of 17703 to 17791 is likely to act support for the prices. In coming trading session if Nifty for first hour trades above 18095 level then it may test 18200 - 18250 levels. On the downside, 17850 – 17740 levels may act as support for the prices.

We maintain our stance that looking at the upward gap area on the daily chart we are of the opinion that Nifty is likely to test 18200 – 18500 levels in couple of weeks. Hence, one needs to adopt buy on decline strategy at current level.
