Market Technical Outlook

Nifty opened Gap up but traded in a range with some volatility and close in green. On the daily chart, we are observing “Doji” candlestick pattern formations which indicate consolidation will remain continue. In coming trading session if nifty trades above 18650 level then it may test 18750 – 18800 levels. On the downside, 18450 – 18350 levels may act as support for the day.

We still continue to maintain or stance that looking at the major pattern of inverse head and shoulder formed above 17900 level suggests that market is heading to test all-time high or even head higher in couple of weeks. Hence, one needs to adopt positive approach at current level as stock specific activity is likely to continue.
