Market Technical Outlook

Nifty, opened higher, traded with positive bias throughout the day to close in green. On the daily chart we are observing an upward gap area in the range of 15738 to 15762. Further we have seen that prices have convincingly closed above the 21-day SMA (15755). This suggests that the undertone in the market is positive. In coming trading session if nifty for first hour trades above 15845 level then it may test 15940 - 16030 levels. On the downside, 15750 – 15670 levels may act as support for the day. **We still maintain our stance that stock specific activity is likely to continue in small and Mid-cap stocks.**
