### Market Technical Outlook

Nifty opened higher but was unable to sustain the opening gains and witness selling in the latter half of the session to close in red. On the daily chart we are observing that prices have almost tested the 50-days SMA (17438) by making a low of 17462. In coming trading session if Nifty for first hour trades below 17462 level then it may test 17350 -17260 levels. On the upside, 17630 – 17750 levels may act as resistance for the day.

**Broadly, going forward 50-day SMA (17438) on daily closing basis would remain crucial support level. Hence cautiously positive approach should be adopted at current level.**
