Market Technical Outlook

On 06/03/2019 markets opened up with a gap and traded in a narrow range throughout the day to close in green. On the sectorial front Telecom, Consumer Durable and Power ended on the gainers side whereas Auto ended with marginal losses. The advance decline ratio was in favour of advancing counter (Advances= 1673 Declines= 1026).

Pattern Formation: On the Daily Chart we are observing an upward gap area in the range of 10994 to 10998. Normally, upward gap area does act as support for the markets.

Outlook: We maintain our stance that the undertone in the market has turned positive. In coming trading session if Nifty trades and close 11080 level then it can test 11100 - 11150 levels. On the downside, 10994 - 10950 levels may act as support for the day.

Broadly, we are of the opinion that the undertone has turned positive and stock specific activity is likely to continue.
