Market Technical Outlook

Nifty, opened higher traded with extreme choppiness and finally managed to close in green. On the daily chart we are observing prices for two consecutive trading session tested the upward gap area of 14572 to 14617 (upward gap area formed on 30.03.2021) and has closed above it. Normally upward gap area does act as support for the prices. In coming trading session if Nifty trades above 14750 then it may test 14850 - 14900 levels. On the downside, 14600 - 14520 levels may act as support for the day.

Since, the prices are trading below the 50-day SMA (14789), one can adopt cautiously positive approach at current level. However, stock specific activity is likely to continue.
