### Market Technical Outlook

Nifty opened higher trade in a narrow range with positive bias throughout the day to close in green. We maintain our stance that on the daily chart we are witnessing a higher high formation which suggests upside momentum. In coming trading session if Nifty for first hour trades above 17429 levels then it may test 17500 – 17590 levels. On the downside, 17280 – 17170 levels may act as support for the day.

**We still continue to maintain our stance that stock specific activity is likely to continue.**
