Market Technical Outlook

Nifty opened up with a gap and traded with positive bias throughout the day to close in green. On the daily chart we are observing two consecutive upward gap area in the range of 1) 17114 to 17117 and 2) 17287 to 17315. Normally, upward gap area does act as support for the prices. In coming trading session if Nifty trades above 17380 level then it may test 17450 – 17520 levels. On the downside, 17250 – 17170 levels may act as resistance for the day.

We maintain our stance that the daily close is well above the 200-days SMA (16978), one can adopt cautiously positive approach at current level.
