### Market Technical Outlook

Nifty, opened higher traded in a narrow range with positive bias to close in green. We maintain our stance that on the daily chart we are observing series of narrow range body formations which suggests that markets are cautiously positive at current level. In coming trading session if Nifty for first hour trades above 15774 levels then it may test 15880 – 15950 levels. On the downside, 15650 – 15550 levels may act as support for the day.

**We still maintain our stance that stock specific activity is likely to continue in small and Mid-cap stocks.**
