Market Technical Outlook

Nifty opened higher traded with extreme choppiness but finally managed to close in green. On the daily chart we are observing long legged “Doji” candlestick pattern. The close of the said candlestick pattern is near to the upper range of the day. This suggests that a pullback rally is in offing. In coming trading session if Nifty for first hour trades above 17306 then it may test 17400 – 17500 levels. On the downside, 17150 – 17000 levels may act as support for the day.

We maintain our stance that prices are trading below the 50-day SMA (17446) on daily closing basis one needs to adopt cautious approach at current level.
