Market Technical Outlook

Nifty opened lower in wake of weak global clue, traded with extreme choppiness, made a fresh low of 15671 from where sharp recovery was seen in nifty to close in green. On the daily chart, after a "Doji" candlestick pattern we are observing a Bullish engulfing candlestick pattern at the demand zone of 15962 to 15578 (shown above in the graph). Hence, a pullback rally from current level cannot be ruled out. In coming trading session if nifty for first hour trades above 16030 levels then it may test 16250 – 16350 levels. On the downside, 15900 – 15800 levels may act as support for the day.

We maintain our stance that the trend remains down and pull back rallies are likely to attract selling pressure. Hence, one needs to adopt cautiously positive approach at current level.
