# Market Technical Outlook

Nifty, opened higher and momentum on the upside intensified as the day progressed which led the nifty to close in green. On the daily chart, we are observing a bull candle which suggests that the upside momentum is likely to continue. In coming trading session if nifty trades above 18290 level then it may test 18370 - 18450 levels. On the downside, 18150 - 18060 levels may act as support for the day.

We still maintain or stance that looking at the major pattern of inverse head and shoulder formed above 17900 level suggests that market is heading to test all-time high or even head higher in couple of weeks. Hence, one needs to adopt positive approach at current level as stock specific activity is likely to continue.
