### Market Technical Outlook

Nifty opened lower traded with choppiness and finally closed in red. On the daily chart, we are observing that prices for two consecutive trading sessions closed below the 20-days SMA (16438). This suggests weakness. In coming trading session if Nifty trades below 16290 then it may test 16100 - 16050 levels. On the upside, 16450-16580 may act as resistance for the day.

**We still continue to maintain our stance that the recent low of 15735 is the intermediate bottom and pull-back rally is in offing. Hence, one needs to adopt cautiously positive approach at current level.**

### Foreign Institutional Investments (FII's) Activities
