Nifty, opened higher traded with choppiness but finally close in green. On the daily chart, we are observing a "Doji" candle pattern at the supply zone of 18300 to 18350 (shown above in the graph market with yellow line). In coming trading session if nifty trades above 18260level then it may test 18310 - 18380levels. On the downside, 18100 - 18000levels may act as support for the day.

We continue to maintain our stance that, looking at the position of the short term moving averages and position of the momentum indicator viz. RSI. We are of the opinion that momentum on the upside is likely to continue. Hence, oneshould adopt positive approach at current level.
