Market Technical Outlook

Nifty, opened higher traded with positive bias throughout the day to close in green. On the daily chart, we are observing continuation of higher high formations which suggest that momentum on the upside is likely to continue. In coming trading session if nifty trades above 13366 level then it may test 13500 - 13600 level. On the downside, 13200 - 13100 levels may act as support for the day.

We maintain our stance that the trend remains up but a consolidation or minor correction from current level cannot be ruled out. Hence, one should adopt buy on decline strategy.
