Market Technical Outlook

Nifty opened up with a gap and traded with positive bias throughout the day to close in green. On the daily chart we are observing an upward gap area in the range of 17306 to 17339. Normally, upward gap area, act as support for the prices. In coming trading session if Nifty for first hour trades above 17480 then it may test 17600 - 17700 levels. On the downside, 17350 - 17250 levels may act as support for the day. **Since, prices have marginally close above the 50-day SMA (17455) on daily closing basis one needs to adopt cautiously positive approach at current level. Further, we would warn that RBI is going to announce its monetary policy we are likely to witnessed volatile session.**
