Market Technical Outlook

Nifty, opened lower but witness upside momentum in the second half of the session which led nifty to close in green. On the daily chart, we are observing that prices for second consecutive trading session has close above the 200-day SMA and 50-day SMA. At present prices are within the supply zone of 17573 to 17799 marked in blue in the above graph. Hence, we may witness some consolidation or minor correction from current level. In coming trading session if nifty trades above 17640 level then it may test 17710 to 17799 levels. On the downside, 17500 - 17400 levels may act as support for the day.

Since, prices are approaching the supply zone of 17573 to 17799. Hence some consolidation or minor pullback cannot be ruled out. Hence, one needs to adopt cautiously positive approach at current level as stock specific activity is likely to continue.
