Market Technical Outlook

Nifty opened down with a gap recovered some of its losses during the day to close in red. On the daily chart, we are observing a Spinning top candlestick pattern which gives small clue that prior downtrend is losing breath. In coming trading session if Nifty for first hour trades above 16405 then it may test 16480 – 16530 levels. On the downside, 16200 – 16100 may act as support for the day.

We maintain our stance that on the daily chart prices are making a lower top lower bottom formation. Hence, rallies are likely to attract selling pressure. At present, one needs to adopt cautious approach at current level.
