Nifty opened up with a gap and momentum on the upside intensified in the latter half of the session which led the indices to close in green. On the daily chart, we are observing three consecutive upward gap in the range of 12131.10 to 12131.85, 11929 to 12027 and 12280 to 12367. Normally, upward gaps do act as support for the prices. In coming trading session if Nifty trades above 12474 level then it may test 12600 - 12800 levels. On the downside, 12250 - 12150 levels may act as support for the prices.

We maintain our stance that the momentum on the upside is likely to continue. Further, we have seen strong breakout in Mid and small- caps which suggests further upside momentum. Hence, one should adopt positive approach at current level. However, stock specific activity is likely to continue.
