Market Technical Outlook

Nifty opened higher traded with choppiness but finally managed to close in green. On the daily chart we are observing that prices have convincingly close above the 50-daysSMA (17464) which suggests that sentiments are turning positive. In coming trading session if Nifty for first hour trades above 17640 then it may test 17750 - 17780 levels. On the downside, 17500 - 17400 levels may act as support for the day. **Since, prices have convincingly close above the 50-daySMA (17464) on daily closing basis one needs to adopt cautiously positive approach at current level.**
