### Market Technical Outlook

Nifty opened up and traded in tight range throughout day, but in the last hour we have seen once again selling from higher level. On the daily chart, we are observing series of “Narrow Range” body formation which indicate some consolidation at current level, but at higher level still need to adopt caution approach. In coming trading session if Nifty for first hour trades below 16140 then it may test 16050 – 15950 levels. On the higher side, 16400 – 16550 may act as resistance for the day. **We maintain our stance that on the daily chart prices are making a lower top lower bottom formation. Hence, rallies are likely to attract selling pressure. At present, one needs to adopt cautious approach at current level.**
