Market Technical Outlook

On 10/06/2019 markets opened on a subdued note traded in a narrow range with choppiness to close in red. On the sectorial front, Realty, Power, Oil & Gas Capital Goods and Auto ended on the losing side. The advance decline ratio was in favour of declining counter (Advances= 1178 Declines= 1268).

Pattern Formation: On the Daily Chart, we are observing two consecutive narrow range body formation near the upward sloping trendline.

Outlook: The current price action on the daily chart suggests that markets are circumspect at current level. In coming trading session, if Nifty trades below 11470 level then it may test 11450 – 11400 levels. On the upside, 11550 – 11600 may act as resistance for the day.

At present one needs to adopt cautious approach at current level.
