Market Technical Outlook

Nifty opened up with a gap, witness some profit booking at higher levels but finally managed to close in green. On the daily chart, we are observing two upward gap area 1) 16011 to 16045 & 2) 16150 to 16157. Normally upward gaps area does act as support for the prices. Further, we are observing that prices have convincingly close above 20 & 50 days SMA (20 days SMA 15190 and 50 days SMA 16152). In coming trading session if nifty for first hour trades above 16275 level then it may test 16380 - 16440 levels. On the downside, 16100 - 16000 levels may act as support for the day. **We continue to maintain our stance that since prices have reclaimed the 20 days SMA & 50 days SMA. Hence, we are of the opinion that one needs to adopt cautiously positive approach at current level as stock specific activity is likely to continue.**
