Market Technical Outlook

Nifty, opened down with a gap in wake of weak global clue but recovered some of its losses during the day to close in red. On the daily chart we are observing that prices tested the first upward gap area and close within it (upward gap areas in the range of 1)17114 to 17117 and 2) 17287 to 17315). In coming trading session if nifty trades above 17280 level then it may test 17350 - 17440 levels. On the downside, 17130-17050 levels may act as support for the day.

We still maintain our stance that the daily close is well above the 200-days SMA (16978), one can adopt cautiously positive approach at current level.
