Market Technical Outlook

Nifty, opened higher traded in a narrow range with positive bias to close in green. We still continue to maintain our stance that on the daily chart is maintaining higher highs formations which suggests that the undertone is still positive. In coming trading session if Nifty trades above 14500 levels then it may test 14550 - 14625 levels. On the downside, 14360 – 14310 levels may act as support for the day.

We maintain our stance that the upward gap area and higher highs formations on the daily Nifty chart suggests that momentum on the upside is likely to continue. Hence, one needs to adopt cautiously positive approach at current level as stock specific activity is likely to continue
