Market Technical Outlook

Nifty opened higher but was unable to sustain the opening gains and finally close in red. On the daily chart, we are observing four consecutive narrow range body formations which gives small clue that the prior downtrend is losing breath. In coming trading session if nifty for first hour trades above 16230 then it may test 16300– 16350 levels. On the downside, 16050– 15960 may act as support for the day. **We maintain our stance that on the daily chart prices are making a lower top lower bottom formation. Hence, rallies are likely to attract selling pressure. At present, one needs to adopt cautious approach at current level.**
