Nifty opened on a subdued note traded with choppiness but finally close in green. On the daily chart we are observing three consecutive narrow range body formation which suggests that markets are cautious at higher levels. In coming trading session if Nifty for first hour trades above 18041 level then it may test 18141 - 18200 levels. On the downside, 17900 - 17800 levels may act support for the day.

We still continue to maintain our stance that stock specific activity is likely to continue.
