Market Technical Outlook

Nifty opened lower, and momentum on the downside intensified as the day progressed which led the Nifty to close in red. On the daily chart, we are observing that prices came very close to the 50-days SMA (17775) made a low of 17798. Hence, any daily close below 17775 would indicate further weakness. In coming trading session if nifty for first hour holds 17775 level and trades above 17930 level then it may test 17970 -18050 levels. On the flip side, if nifty trades below 17775 then next support is at 17700 – 17650 levels.

At present one needs to adopted cautious approach at current level.
