Market Technical Outlook

Nifty opened lower in wake of weak global clues traded with negative bias throughout the day to close in red. On the daily chart, we are observing that prices have breached the upward gap area of 16011 to 16045 (formed on 7th July 2022) but have close within it. Normally upward gaps area does act as support for the prices. In coming trading session if Nifty for first hour trades holds the mentioned gap area then it may test 16150 - 16250 levels. On the flip side if it breaches the gap area then next support is at 15950 – 15860 levels.

At present, prices are trading above the rising 20days SMA (15950). Hence, we are of the opinion that one needs to adopt cautiously positive approach at current level as stock specific activity is likely to continue.
