Market Technical Outlook

Nifty, opened higher traded with choppiness and finally closed in green. On the daily chart we are observing that prices have marginally close above the 200-days SMA which suggests that momentum on the upside may continue. In coming trading session if nifty trades below 16960 level then it may test 16840 – 16780 levels. On the upside, 17250 - 17360 levels may act as resistance for the day.

At present, prices are oscillating below and above the 200-days SMA (16986). Hence, one should adopt cautious approach at current level.
